

2007 VNANE Annual Meeting

Vendors and Sponsors

American Medical Alert Corp

American Medical Alert Corp. (NASDAQ:AMAC) offers an integrated suite of health monitoring devices and 24/7 communication services to support the delivery of high quality, cost effective home care. Our products include Emergency Response Devices, Telehealth and Bio-Metric monitoring appliances and 24/7 healthcare exclusive answering services. Visit us at www.amac.com.

Fazzi Associates

Fazzi Associates is a leader in change management. All of our planning, consulting, and benchmark services are designed to do one thing: to support organizations and communities in making critically needed changes.

HealthWyse

HealthWyse offers an integrated Point of Care and Financial system for Certified Home Care, Hospice and Private Duty agencies to include:

- Flexible Point-of-Care (PDA, Tablets and Laptops)
- Clinically Driven/Complete Electronic Medical Record with Addressable History & Real Time Alerts
- Integrated Telephony
- Survivability Architecture – Local Data with Remote Managed Services

Honeywell HomMed

Honeywell HomMed is a leader in telehealth monitoring. Honeywell HomMed's product line includes two models of telehealth monitors (Sentry and Genesis) as well as Central Station software – all are FDA Class II medical devices. The telehealth monitors are placed in the user's home or clinical environment and collect and transmit health status information from the user. The Central Station receives and presents it to clinical personnel for monitoring and tracking.

Masspro

Masspro (www.masspro.org) is a healthcare performance improvement company with extensive experience in designing systems and culture change models. Our innovative, impactful solutions transform patient care.

Patient Care Technologies, Inc.

PtCt introduces the latest innovations in home care: Maestro®, the only enterprise software to automate your business processes providing real time management; and well@home®, telehealth that goes beyond traditional telemonitoring with patient-specific education and medication compliance, proving that it pays to be different. Work flows. Productivity increases. Outcomes improve.

Qualidigm and Quality Partners of Rhode Island

Qualidigm and Quality Partners of Rhode Island are the Quality Improvement Organizations for Connecticut and Rhode Island. Our goal is to work with individual agencies to enable each to reach their full potential as a quality home health provider. Agency specific on site one-on-one consulting, data analysis, education and training are available to assist in achieving improved OASIS outcomes and reducing Acute Care Hospitalization rates.

Sentri

Sentri provides IT services as well as integrated business, communications, and technology solutions to small and mid-size businesses throughout New England. We help you leverage your IT and Communications in order for you to focus on your core business functions; whether you want to outsource a single project, help desk, remote monitoring or augment your staff, whether you need emergency disaster response on a moment's notice, or you want a new solution for the cost of upgrading and maintaining your infrastructure. Sentri clients include Harvard University, Lo Jack, and the Museum of Fine Arts.

Telcohelp Communications Corp.

Network Services, IP Design, and Account Management. As IP Management and consulting firm, Telcohelp is a "one stop" for all your telecommunication needs. In-depth industry knowledge, account analysis programs save our clients money, time, and frustration.

VNA Benefit Program

VNAPro is a Specialty Provider of Retirement Programs and Employee Benefit Programs to the Home Healthcare Industry. At VNAPro we have the ability to bring customized, multi-mutual fund investment options, personalized service, experience working with Home Health Agencies, special pricing for VNANE members, and an established track record of helping agencies enhance their programs without changing the plan design. Security Benefit, our preferred provider, specializes in non-profit organizations and was selected as a result of a year long due diligence process.
